

IN THE SPECIFICATION

Please amend the paragraph beginning on page 9, line 10, as follows:

Referring now to Figure 3, a flow diagram of a method that may be implemented in the wireless client 35(1-m) is illustrated, in accordance with one embodiment of the present invention. For clarity and ease of illustration, the method of Figure 3 is described in the context of the wireless client 35(1) being the transmitter and the wireless network hub 30 being the receiver. That is, in the illustrated embodiment, the communication application 45 of the wireless client 35(1-m) transmits data that is then ~~the~~ received by the wireless network hub 30 and then delivered to the communications application 46 of the client 25(1) over the network 15. It should, however, be appreciated that either the wireless client 35(1) or wireless network hub 30 may be the transmitter. As such, some of the steps of the method of Figure 3 may be implemented in other devices, such as the network wireless hub 30.
